

JOURNAL  
OF THE  
AMERICAN WATER WORKS  
ASSOCIATION

VOLUME 36  
1944

AMERICAN WATER WORKS ASSOCIATION  
(Incorporated)  
500 Fifth Ave., New York 18, N. Y.

## Re: Binding of the Year's Journals

Through the co-operation of the Library Binding Institute, an organization of binderies which specializes in binding publications into volumes, arrangements have been made to give information and assistance to A.W.W.A. members who want to have their JOURNALS bound. This work may be done in accordance with standards of materials and construction required for durability, service and accessibility by college, reference and public libraries. The American Library Association and the Library Binding Institute have co-operated in promulgating "Minimum Specifications for Class A Library Binding" based on research and production and performance experience.

A committee of the American Library Association has certified responsible and reliable library binderies which have proved able to meet these specifications. To obtain standard quality binding, simply request Class A binding at any certified bindery. In obtaining price quotations, state the three dimensions of the volume.

Names and addresses of certified binderies in your area are available from the Library Binding Institute, 501 Fifth Avenue, New York 17, N. Y. Before sending copies to the bindery:

1. Check for missing issues and check each issue for defects, missing pages, etc. Be sure to include the volume index.
  2. Tie the twelve issues together carefully so that nothing is crumpled or torn.
  3. Write out definite instructions giving your preferences on the following points:
    - a. Color of binding (one of the following standard colors should be selected: dark green, dark blue, black, brown or medium red).
    - b. Whether the advertising sections and/or paper covers are to be bound into the volume.
    - c. An exact copy of the text to be lettered in gold on the backbone.
- A common form is:

Journal— $1\frac{3}{4}$  in. from top      Vol. 00— $4\frac{1}{4}$  in. from bottom

A.W.W.A.— $2\frac{1}{4}$  in. from top      1900— $3\frac{3}{4}$  in. from bottom

- d. If you have had JOURNALS bound before and want your set to match as closely as possible, send a previous volume as a sample. If you want an approximate match, send a "rubbing" of the lettering on a previous volume and indicate the color.

If satisfactory arrangements cannot be made, or if there is any difficulty, advise the A.W.W.A. office and steps will be taken in co-operation with the Library Binding Institute to assure you proper service.

## Table of Contents

### January

The Delaware River Basin—A Home Rule Program for the Development of Its Resources. By <i>James H. Allen</i> .....	1
Water Engineering After the War. By <i>N. A. F. Rowntree</i> .....	12
Outline of Design for Steel Water Pipelines. By <i>Russell E. Barnard</i> .....	23
The War Production Board's Policies as Related to West Coast Water Utilities. By <i>Arthur E. Gorman</i> .....	32
The Removal, Reconditioning and Installation of 36-Inch Pipe by the Metropolitan Water District of Southern California. By <i>Robert B. Diemer</i> .....	43
Reconditioning and Protection of Steel Pipelines in Place. By <i>L. W. Grayson</i> ....	53
Field Removal of Asphalt Lining and Coating From 24-Inch Steel Pipe. By <i>Carleton V. Bascom</i> .....	59
Specification Requirements for Reconditioning and Strengthening Used 44-Inch Steel Pipe for Permanent Installation. By <i>Fred D. Pyle</i> .....	62
San Diego's Experience in Cement Lining of Cast-Iron Pipe in Place. By <i>Fred A. Rhodes</i> .....	64
Discussion by <i>L. L. Farrell, W. R. McLean and C. W. Heinecke</i> .....	69
A Medium Size City Puts on Its Thinking Cap. By <i>C. J. Bruce</i> .....	76
Transmission of Virus Diseases by Water. By <i>E. R. Krumbiegel</i> .....	81
The Significance of Good Employee-Employer Relationships. By <i>Edward B. Mayer</i> ..	86
Reconditioning of Warped Meter Discs. By <i>George C. Sopp</i> .....	90
Abstracts of Water Works Literature .....	102
WPB Administrative Letter—OWU Supplementary Utilities Order	
U-1-d .....	117
U-1-f .....	119
Important Supplement to Occupational Deferment Ruling .....	122
Water Conservation in Long Beach, Calif. ....	123
Use Water Usefully .....	125

### February

Engineering and Water Works Practice. By <i>Paul Hansen</i> .....	127
California State Employees' Retirement Act and Its Effect Upon Municipal Water Utility Employees. By <i>Carl K. Chapin</i> .....	134
Victory Garden Rates and Problems. By <i>C. P. Harnish</i> .....	141
WPB Supplementary Order U-1-e .....	150
Some New Features in the Design of Vertical Flocculation Units. By <i>Charles Gilman Hyde and Harvey F. Ludwig</i> .....	151
Resistance Coefficient Calculation From Incremental Flow Measurement. By <i>Ross E. Thompson</i> .....	163
Ground-Water Investigations in Florida (With Special Reference to Duval and Nassau Counties). By <i>H. H. Cooper Jr.</i> .....	169
Emergency Chlorination Program in Los Angeles County. By <i>C. W. Sopp</i> .....	186
Effect of Approach Piping on the Accuracy of Water Meters. By <i>F. L. Moullet and H. A. Knudsen</i> .....	190

Experiences of a Lady Water Works Chemist. By <i>Sara K. Philhower</i> .....	198
Report of the Committee on Water Works Practice .....	201
Report of the Publication Committee .....	210
Emergency Sanitation Standards .....	213
Abstracts of Water Works Literature .....	225
WPB Administrative Letter—OWU Supplementary Utilities .....	
Order U-1 .....	238
Order U-1-a .....	250
Order U-1-d .....	251
Order U-1-f .....	251
Order U-1-g .....	253
Order U-1-h .....	253
Copper Limitation Order Amended .....	255
Money Talks for Water Conservation in Louisville, Ky. ....	256

### March

National Inventory of Needs for Sanitation Facilities; Public Water Supply. By <i>H. W. Streeter</i> and <i>Ray Raneri</i> .....	259
A North Carolina Water Supply in 1766 .....	278
Jurisdiction of the State Corporation Commission. By <i>H. Lester Hooker</i> .....	284
Small Water Works for Unincorporated Areas. By <i>Garland S. Sydnor</i> .....	290
Occupational Deferment of Water Works Employees .....	295
Tests for Active Residual Chlorine and Chloramine in Water. By <i>Francis J. Hallinan</i> .....	296
Conditioning Water for Steam Production. By <i>F. H. Long</i> .....	303
Fundamentals of Utility Extension Rules. By <i>E. F. McNaughton</i> .....	311
Discussion by <i>J. S. Longwell</i> .....	314
Effect of Storage Reservoir Detritus on Ground Water. By <i>T. V. Ackerman</i> and <i>E. J. Lynde</i> .....	315
The Ohio Plan for Financing Sewage Works Improvements. By <i>Wendell R. LaDue</i> .....	323
Watering Lawns .....	330
Municipal Regulation and Sanitary Control of Water for Refrigeration and Air Conditioning. By <i>Irving Reichman</i> .....	334
Bank Payment of Water Bills .....	357
Report of the Audit of Association Funds for the Year Ending December 31, 1943 ....	359
Abstracts of Water Works Literature .....	364
How Much Does a Leaking Faucet Waste? .....	376
WPB CMP Regulations 5A .....	380

### April

Grounding of Electric Circuits on Water Pipe. Statement of A.W.W.A. Policy .....	381
Interim Report of Investigations. American Research Committee on Grounding ....	383
A Standard Wage and Salary Administration Plan. Standard Job Classification and Job Description. By <i>Philip B. Niles</i> .....	405
Developing Consumer Co-operation in Reducing Water Consumption. By <i>Harry R. Hall</i> .....	415
WPB Housing Utilities Standards Amended .....	419
Reducing Water Waste in Industrial Plants. By <i>Lewis B. Miller</i> .....	420
Water-Borne Outbreak in an Oregon Shipyard. By <i>Roy E. Dodson Jr.</i> and <i>A. J. Farrell</i> .....	425
Anthrax and Its Significance. By <i>H. G. Turner</i> .....	431
The Deterioration of Rubber Products by Micro-organisms. By <i>Claude E. ZoBell</i> and <i>Josephine D. Beckwith</i> .....	439
Discussion by <i>Harry E. Jordan</i> .....	452
Army Post Water Plant Operation in the Seventh Service Command. By <i>Chester A. Obma</i> .....	454

198	Water Department Practices and Regulations. By <i>Melvin P. Hatcher, D. L. Erickson,</i>	
201	<i>John C. Detweiler and W. Victor Weir</i> .....	463
210	A New Index for Determining Amount of Calcium Carbonate Scale Formed by a	
213	Water. By <i>John W. Ryznar</i> .....	472
225	Form WPB-2774 Revised .....	486
	Abstracts of Water Works Literature .....	487
238	Water Conservation in Philadelphia. By <i>Martin J. McLaughlin</i> .....	497
250	Willing Water Takes a Bow in Jackson .....	500

### May

253	Sanitation Manual for Public Ground-Water Supplies .....	501
255	Federal Fair Labor Standards Act and Water Companies .....	535
256	Safety in Water Main Construction. By <i>Fred Eitel</i> .....	542
	Stop Waste—Look After Your Pumps. By <i>Morris L. Hicks</i> .....	546
	WPB Limitation Order L-335 .....	552
	Pump Maintenance. By <i>Harry Stock</i> .....	553
	Maintenance and Repair of Meters. By <i>George A. Roden</i> .....	557
259	Hydrant and Valve Inspection and Maintenance. By <i>Carl W. Seemann</i> .....	560
278	Co-operative Meter Reading .....	562
284	Report of a Research Project on the Effects of Electric Grounding on Water Pipes.	
290	By <i>Rolf Eliassen and Philip Goldsmith</i> .....	563
295	A Checklist for the Water Works Executive .....	577
296	Utilities Commodity Tax .....	581
303	WPB U-1 Supplementary Orders .....	582
311	Abstracts of Water Works Literature .....	583
314	Check the Use of Water. By <i>D. E. Davis</i> .....	599

### June

315		
323		
330	Employee Progress Rating and Personnel Records. By <i>Philip B. Niles</i> .....	603
	Depreciation Committee Report—Introductory Statement .....	615
